

Geotechnical Engineering

Major Equipment	A photograph of the equipment
<p>(MASW) multi channel analysis of surface waves(measuring instrument) MOD, GEA, 24 with standard accessories HSN code: 90158030</p>	
<p>Slurry mixture Machine</p>	
<p>Stainless steel slurry mould and loading frame</p>	
<p>Automatic volume change device</p>	

Triaxial conversion kit

Fabrication of Double acting motorized electrical operated compressor

- a. TML earth soil pressure guage type: kdj-200 kPa
- b. TML earth soil pressure guage type: kdj-500 kPa
- c. TML displacement transducer type/ COP-50
- d. TML displacement transducer type/ COP-100
- e. TML high performance 20ch.st. data logger type/ TDS-540-20
- f. static measurement software visual LOG TDS- 7130

- a. Automatic volume change device(make AIMIL)
- b. Tri-axial conversion kit
- c. Data acquisition system
- d. Geostar analysis & reporting software (hardlock& pendrive)

Automatic triaxial system
