

ONE WEEK WORKSHOP ON RESEARCH METHODOLOGY

6th-10th
March 2023

ORGANIZED BY

Department of Humanities, Social
Sciences and Management
National Institute of Technology Srinagar
Hazratbal, Srinagar-190006

About the Institute

National Institute of Technology Srinagar was established in the year 1960 as Regional Engineering College (REC) by the Government of India during the First Five Year Plan (1956–61). It was given the status of National Institute of Technology in the year 2002, and functions under the aegis of the Ministry of Human Resource Development (MHRD), Government of India. As an Institute of National Importance, it imparts high-quality technical education in Engineering, Technology, and Science to produce competent technical manpower for the country.

Location

The institute is located on the western bank of the world-famous Dal Lake near the Hazratbal Shrine in the north-eastern region of Srinagar city. The institute is located 23 km from the Srinagar International Airport and 13 km from the Srinagar railway station.

About the Department

Department of Humanities, Social Sciences, and Management (HSS&M) was established in 1960 as one of the founding departments of the university. The department offers multiple doctorate and postgraduate programmes. Doctor of Philosophy (Ph.D.) is being offered in various areas of English Language & Literature, Economics, and Management.

At the postgraduate level, the department offers Master of Business Administration (MBA) and Master of Technology, Innovation, and Entrepreneurial Management (MTIEM) programmes to the students to educate and prepare them with analytical abilities, critical thinking, and management perspectives.

About the Workshop

A Week-long Workshop on “Research Methodology” will be conducted by the Department of Humanities Social Sciences and Management, National Institute of Technology Srinagar. The workshop will be conducted through *offline* mode. The topics have been so chosen that the issues of research methods and data analysis will be understood even by participants who do not have any initial background in Mathematics and Statistics. This workshop is designed to appeal to different learning styles, with an emphasis on active interactive participation through lab sessions running along the theory sessions. Participants will be provided with sample data set to analyse so that they may gain confidence and expertise in conducting research in their respective subject domains, especially in the area of social sciences
